GETTYSBURG HOTEL

Located in the heart of downtown, the Gettysburg Hotel is the preferred destination venue to make your once in a lifetime event truly perfect. The Grand Ballroom, originally built in 1814 as the Gettysburg National Bank, features a 28' hand painted ceiling inlaid with gold, period chandeliers, large windows with sweeping velvet evergreen draperies and a Grecian border. The original bank vault is still in use as both a place to store your wedding gifts and an ideal and unique photo backdrop.

Impeccable Service and Attention to Detail

Your guests will feel our hospitality during your reception as they arrive in our Atrium for cocktails and our Chef's unique culinary creations. The spacious and light Atrium allows your family and friends to socialize freely, while being attended to by our professional staff. Every detail of your reception will be carefully executed to ensure that each guest feels like royalty.

Designer Appointed Accommodations

Since 1797, guests have enjoyed the warmth and gracious individual award winning service we consistently provide. Our 119-room hotel has expanded over the last several years and has been remodeled from top to bottom to bring you a new look and feel. Guests will experience a historic visit while enjoying all of the amenities of the modern age. Our bridal suites we redesigned with your wedding night in mind, featuring a king sized bed, romantic crackling fireplace and Jacuzzi for two. Your wedding will be remembered forever if you allow us to make our history...your destination.
